PROFILE

Software Engineer with 2+ years of experience in full-stack development and networking, building scalable, maintainable, and secure applications.

Proficient in backend development using Django, FastAPI, and Java Spring Boot, with strong expertise in designing robust RESTful APIs and working with relational databases such as MySQL and PostgreSQL.

Experienced in developing high-performance, user-friendly interfaces using React.js and Next.js, with a solid understanding of modern frontend architectures.

PROFESSIONAL EXPERIENCE

Freelance Software Developer

08/2023 – present

- **Green Saudi Mobile Application** 📄
 - **Tech Stack** : Java Spring Boot, MySQL, React Admin
 - Developed RESTful APIs for a mobile application focused on combating desertification by enabling users to suggest reforestation locations via an interactive map.
 - Built an admin dashboard with multi-role access control to manage users, locations, and system data.
 - Deployed application services on a VPS using Docker containers, configured Nginx as a reverse proxy, and managed the MySQL database.
- **Braille Education Platform** 📄
 - **Tech Stack** : Django REST Framework, Next.js, Docker, Apache2, MySQL
 - Designed and documented RESTful APIs to support course management, student enrollment, assessments, and automated certificate generation.
 - Implemented multiple assessment types, including text-to-braille, braille-to-text, and similar-words recognition exercises.
 - Translated Figma designs into responsive, accessible UI components using Next.js.
 - Developed and integrated the frontend with backend APIs to deliver a seamless user experience.
 - Integrated Celery for handling asynchronous background tasks such as email notifications (password reset and email verification).
 - Containerized the application using Docker to ensure consistency across development and deployment environments.
- **LocalLucci Admin Dashboard**
 - **Tech Stack** : React, TypeScript, Redux, RTK Query, Tailwind CSS
 - Developed a web-based admin dashboard for the LocalLucci mobile application.
 - Translated Figma designs into responsive and reusable UI components using Tailwind CSS.
 - Designed and implemented sales analytics and reporting features to monitor platform performance and business insights.
 - Built management tools for creating, updating, and controlling vendor advertisements and promo codes.
 - Integrated backend APIs using RTK Query to handle data fetching, caching, and state synchronization.
- **LocalLucci Client Website**
 - **Tech Stack** : Next, TypeScript, Redux, RTK Query, Tailwind CSS
 - Developed a client-facing website for a multi-tenant e-commerce platform.
 - Translated and implemented 20+ Figma designs into responsive and reusable high-quality UI components.
 - Built and optimized the full shopping flow, including add-to-cart and checkout processes.
 - Integrated backend APIs using RTK Query for efficient data fetching, caching, and state management.

Information Technology Engineer at WOTECH

02/2024 – present

- Managed and maintained network and server infrastructure, ensuring high availability and security.
- Administered storage and backup solutions to safeguard data integrity and ensure reliable disaster recovery.
- Managed **Active Directory**, including user accounts, groups, permissions, and enforcement of security policies.
- Developed an **internal license tracking system** to monitor software license expirations and automatically send email alerts for timely renewals.

EDUCATION

Bachelor Computing and Data Science, *Alexandria University*

09/2019 – 07/2023 | Alexandria, Egypt

CGPA : 3.2

Blind Assistance System (Graduation Project) [!\[\]\(0f848bbd71cef6b345273b16f905912a_img.jpg\)](#)

09/2022 – 06/2023

- Developed a Raspberry Pi-based smart glasses system using computer vision and machine learning for real-time environmental assistance.
- Deployed deep learning models on Raspberry Pi and integrated them with a mobile application for seamless user interaction.

SKILLS

- Languages : Java, Python, JavaScript, TypeScript, SQL, HTML, CSS
- Backend : Django, Flask, FastApi, Java Spring Boot
- Frontend : React.js, Next.js, Redux, RTK Query, Tailwind, Bootstrap, Ajax
- Concepts : Data Structure and Algorithms, OOP, Solid, REST API, MVC Architecture,
- DevOps : Docker, AWS (EC2), VPS
- Tools : VS Code, Cursor, NetBeans, Git, GitHub, Postman, Insomnia

CERTIFICATES

- Meta Back-End Developer [!\[\]\(33006de4dd11f8c729ca8ca0fde0352f_img.jpg\)](#)
- Backend With Django [!\[\]\(d5f9ffa97ddb414b7e96feb8ad710c8e_img.jpg\)](#)
- Database Fundamentals [!\[\]\(d900cae4f5a7d73d67b6a98ff3e7bb9a_img.jpg\)](#)
- Supervised Machine Learning [!\[\]\(ca15981e1cca5aa5bb6984590487f7b9_img.jpg\)](#)
- Advanced Learning Algorithm [!\[\]\(bbe2f84e2181f98756cb54246365881c_img.jpg\)](#)
